

8. Introduction to Economics

Std 9th

Sub – Geography

Q (1) explain the types of economies by filling correct information in the place of questions in the circle.

Ans.

Q (2) Give an explanation :

(1) Economy begins at home.

Ans. (i) The management of individual or family finances is mainly related to income and expenditure i.e. economic factors. This led to the birth of economics.

(ii) The word 'economics' is Derived from the Greek word 'oikonomia' which means 'family management'. There is a lot of similarity between family management and economics.

(iii) As we manage the finances of our family, similarly, villages/cities, states, countries and world also need to have economic management.

(2) India's economy is of mixed type.

Ans. (i) There is coexistence of public sector and private sector in the Indian economy.

(ii) The ownership and management of production are divided between government and the private individuals.

(iii) The private sector undertakes production for the profit motive, whereas the state tries to achieve social welfare.

(iv) In this way we have the features of, both capitalist economy and socialist economy.

(v) Therefore, it is said that India has mixed economy.

(3) On the basis of economies, we can divide countries into three groupes.

Ans. (i) the enterprises related to the production, distribution and consumption of goods and services in a specific region is called an economy.

(ii) On a global level, there are three types of economies.

Capitalistic economy:- 1. Ownership and management of means of production is in the hands of private individuals.

2. Main aim is to earn maximum profit. Germany, Japan, the USA have adopted such a type of economy.

Socialistic Economy:- (i) The means of production belong to the society as a whole i.e. the government's control.

(ii) Main aim is to achieve social welfare. China and Russia have adopted Socialistic type of economy.

Mixed Economy:- (i) Co-existence of private and public sectors.

(ii) A balance between profit and social welfare is made.

India, Sweden, the UK have adopted this type of system.
