

Chapter 7 : Human Settlements

Q.1. Can you tell? (Textbook page 48)

Study the following graph and answer the following questions in words/sentences:

Answer:

1. What was the percentage of urbanization in 1961?

Answer: 18%

2. In which decade was urbanization the highest?

Answer: 1971 to 1981.

3. In which decade was the growth of urbanization lowest?

Answer: 1961 to 1971.

4. What inference can you draw regarding India's urbanization after reading the graph?

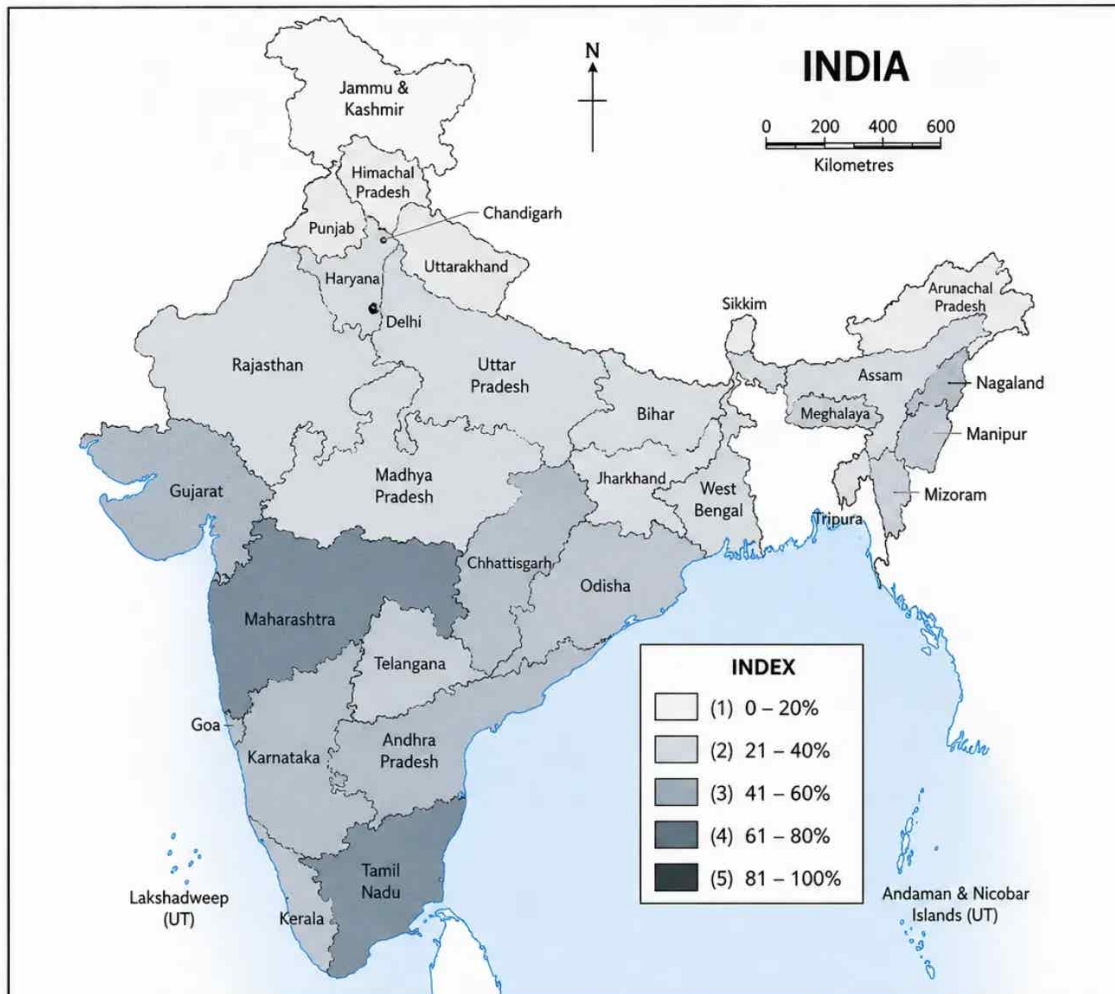

Answer: The urbanization was lowest in the decade of 1961–1971 and the highest was in the decade of 1971–1981.

Q.2. Give it a Try. (Textbook page 48)

Prepare a choropleth map showing urban population using the data given in the following table:

Answer:

Map

Q.3. Try this. (Textbook page 48)

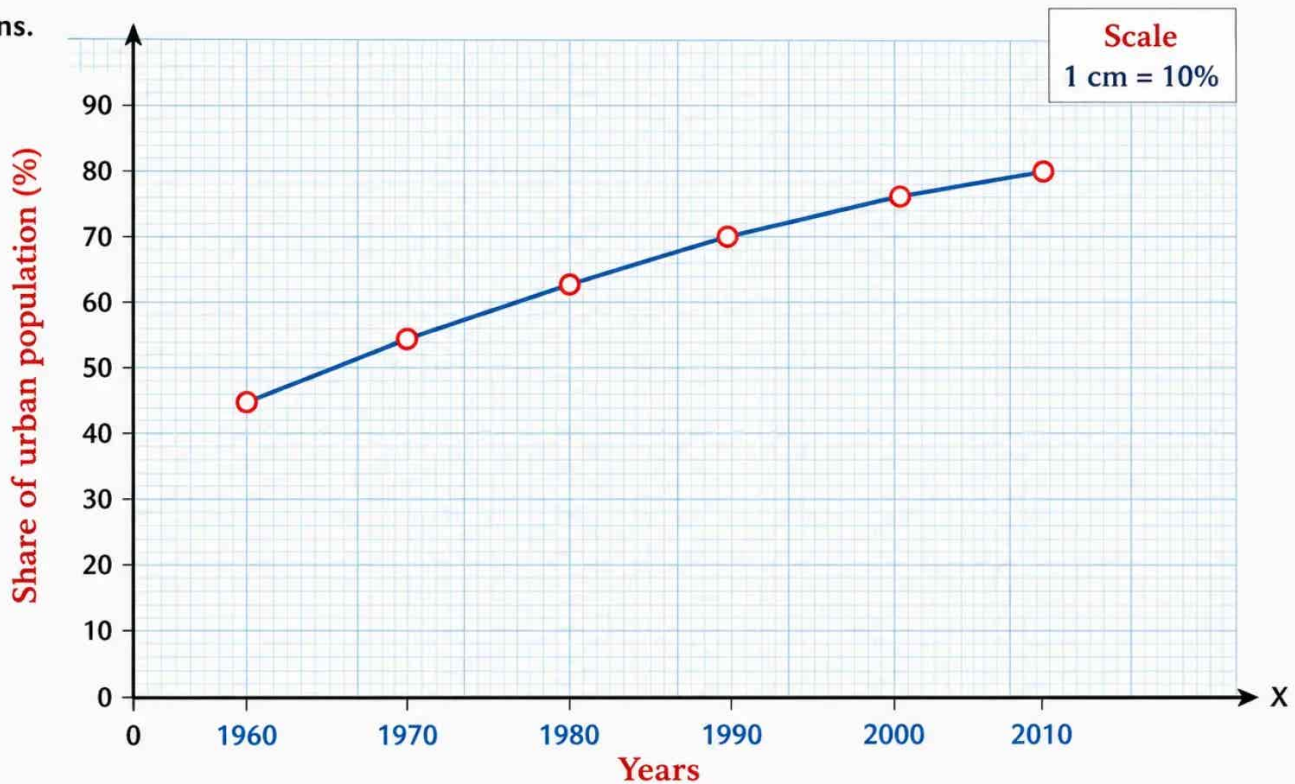

Look at the following table. It shows the growth of share of urban population in total population of Brazil. Draw a line graph from the table. Examine the graph carefully and answer the following questions:

Answer:

Graph

Add Line Graph Here

Ans.

1. What is the interval of the data?

Answer: The interval of the data is 10 years.

2. In which period did urbanization occur rapidly?

Answer: Urbanization occurred rapidly during the decade 1960 to 1970.

3. Write five sentences analyzing the graph.

Answer:

1. In Brazil, urbanization has increased continuously from 1960 to 2010.
2. During 1960 to 1970, urbanization increased rapidly by 9.7%.
3. During 2000 to 2010, urbanization increased at the slowest rate, by 3.1%.
4. The share of urban population increased in every decade.
5. Brazil became highly urbanized by 2010.

Q.4. Compare the line graph shown in Q.1 and the line graph drawn by you in Q.3 for Brazil. Write five lines on the changes

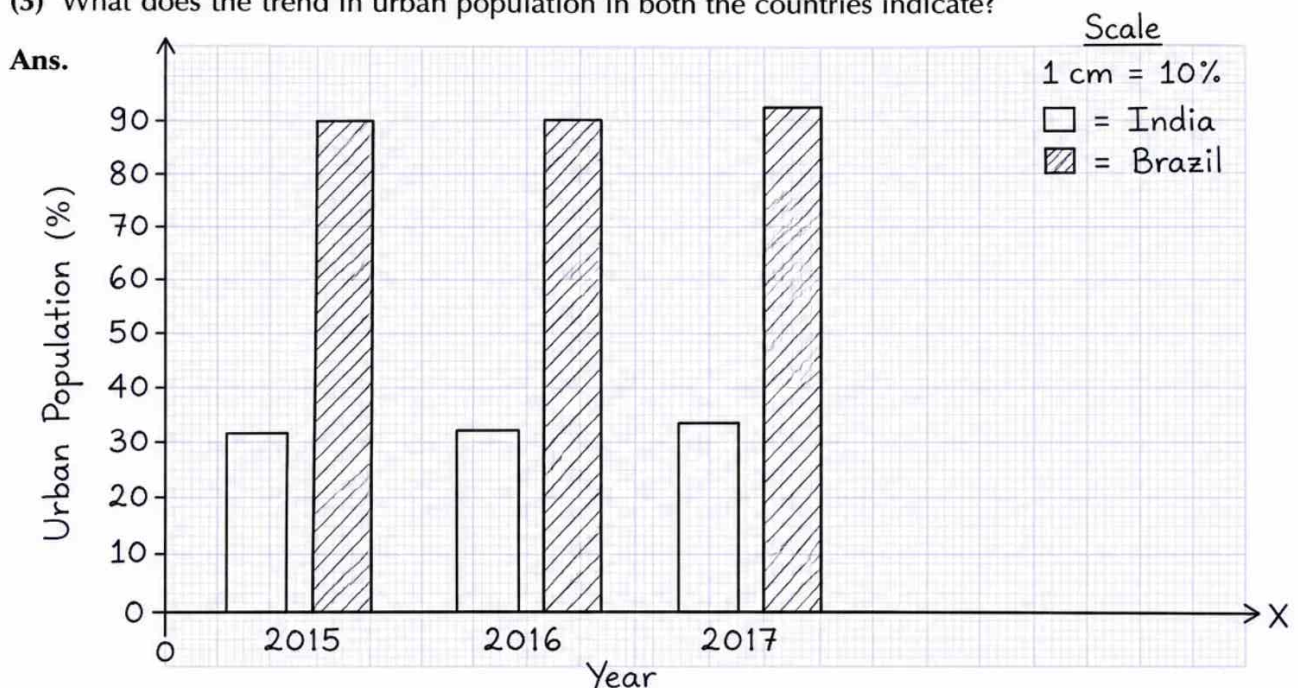

in urbanization that have occurred in both the countries with time.

Answer:

1. In India, the percentage of urban population increased from 18% in 1961 to 31.2% in 2011.
2. In Brazil, the percentage of urban population increased from 47.1% in 1960 to 84.6% in 2010.
3. Urbanization increased steadily in both countries.
4. Brazil had a much higher level of urbanization than India throughout the period.
5. The rate of urbanization was faster in Brazil than in India.

Q.5. Prepare a multiple bar graph on the basis of the given information and answer the questions.

- (1) What is the percentage of urban population in India in 2017?
- (2) In which country is the percentage of urban population higher?
- (3) What does the trend in urban population in both the countries indicate?

1. What is the percentage of urban population in India in 2017?

Answer: 32.8%.

2. In which country is the percentage of urban population higher?

Answer: Brazil.

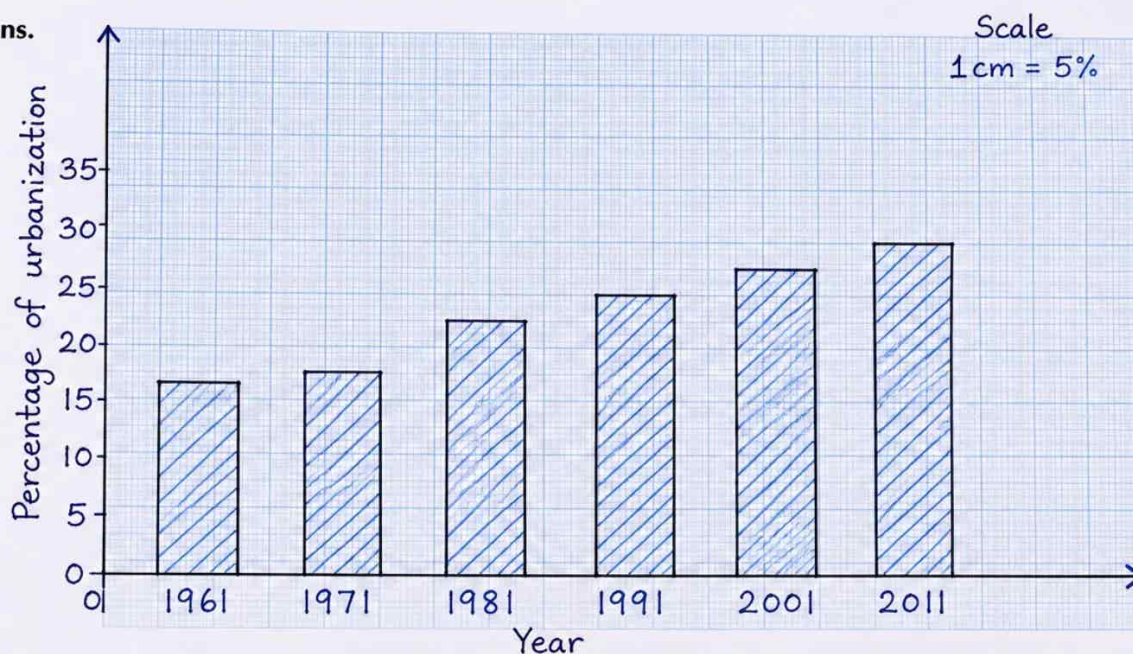

3. What does the trend in urban population in both the countries indicate?

Answer: The trend indicates that the rate of urbanization is low in Brazil and high in India.

Q.6. With the help of given statistical data prepare a simple bar graph and answer the following questions.

- (1) What is the interval of the data?
- (2) Which decade shows slow rate of urbanization?
- (3) Which decade shows high rate of urbanization?

Ans.

1. What is the interval of the data?

Answer: The interval of the data is **10 years**.

2. Which decade shows slow rate of urbanization?

Answer: **1961–1971** shows the slow rate of urbanization.

3. Which decade shows high rate of urbanization?

Answer: **1971–1981** shows the high rate of urbanization.

Q.7. Make friends with maps! (Textbook page 50)

Answer:

1. Which states (region) in Brazil are the most urbanized?

Answer: Sao Paulo and Goias.

2. Which states (region) in Brazil are the least urbanized?

Answer: Para, Maranhao and Piaui.

3. Mention the percentage of urban population of the state of Ceara.

Answer: 61–70%.

4. Name any two states having 71 to 80 per cent of urban population.

Answer: Acre and Rondonia.

Q.8. Mark the following on the given outline map. Give index:

Answer:

A. States with 51–60% urban population:

1. Para
2. Maranhao

B. States with 61–70% urban population:

1. Ceara
2. Bahia

C. States with 71–80% urban population:

1. Acre
2. Rondonia

D. States with 81–90% urban population:

1. Parana
2. Santa Catarina

E. States with 91–100% urban population:

1. Sao Paulo
2. Rio de Janeiro

Answer:

map
